

# Vacuum Glass Lifter 400 kg

## VB4 RCMBM

## VB4 RCMBM PRO

■ Battery ■ 360° rotation ■ 90° tilt

✓ dual vacuum circuit EN 13155

The VB4 model is one of our best-selling vacuum lifters. VB4 is self-powered by capacious rechargeable batteries that, if necessary, may be easily removed and quickly replaced.

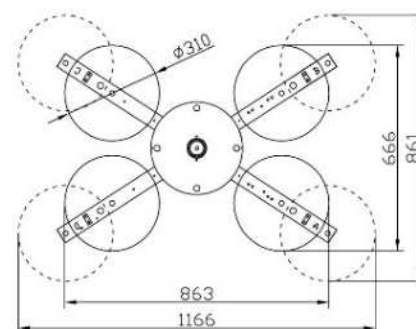

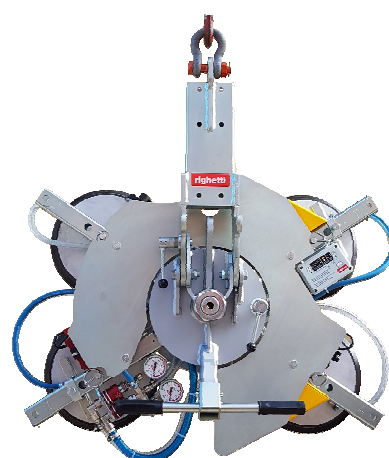

The suction pads are repositionable in two different positions.

Version PRO is complete of extension arms for bigger pad spread.

VB4 may be completed with a series of useful optional to adjust the lifter to operator's needs.

### Technical specification

Application	Glass panels
Lifting capacity	Max 400 kg
Suction pads	No. 4 round suction pads diameter 310 mm Lipped pads with safety ring
Load movement	Continuous 360 degree rotation, with possibility of automatic locking at each 90° 90 degree tilt, with possibility of automatic locking in upright and flat position
Pad spread VB4	mm 863 x 666 mm 1166 x 861
Pad spread VB4 PRO	mm 863 x 666 mm 1166 x 861 mm 1535 x 1100 mm 1770 x 310
Operating system	DC vacuum pump powered from on-board batteries high capacity re-chargeable batteries battery status indicator economizer for reduction of the energy consumption
Vacuum system	2 independent vacuum circuits, each vacuum circuit with vacuum reserve and non return valve
Weight of lifter	78 kg
Structural depth	mm 250
Control	Manual on off valve on the lifter's frame Release of the load by dual action security command Remote control as optional
Standard features	Audible and visual low vacuum warning devices Vacuum gauge for each vacuum circuit Battery charger 240 Volt Vacuum filter Multi position hook connection Lowered suspension for installing of transom window

### \* Version PRO ■ modular frame

The version PRO includes extensions arms and the possibility to put the 4 pads in line. Available only on series VB4 and VB4 d4.
